Q: Why is there no fare returned on a booking with an infant?

A: We are aware that there is an issue with an infant being included in an Air Asia PNR. If a travel consultant adds an infant in a PNR, it is rejected when a confirmed price is requested. We are investigating and will get back to the ACO as soon as possible.

Q: Is a travel consultant entitled to reward points on Amadeus Rewards for Air Asia bookings?

A: Amadeus Rewards calculates points based on segment information from BIDT (DABA). From what we have seen, LCC segment information is included (i.e. 3K). At this point in time, Amadeus Rewards is unable to differentiate segments by airline. If there is a requirement at a regional level to separate segments made on LCC's, then the system will need to be enhanced to support this.

A: It is for agencies, which have commission arrangements with Air Asia (they know this by the agency office id that is sent to them).
