Amadeus Customer Profiles Enhancement – Credit Card concealment in remark elements

Dear Travel Partner,

As another step towards data security and PCI-DSS compliance, Amadeus is pleased to introduce the latest enhancement in securing credit card data stored in customer profiles.

- By default, the Credit card and CVV numbers stored in remark elements will be concealed in Customer Profiles product.
- In a remark, when a sequence of 3 or 4 digits is following 'CVV' or '*CV' or 'CVC' or a CC number, it will be considered as a CVV and will be concealed as well (replaced by 999).
- The restriction can be enforced or removed based on users' decision
